Subject Film for ACDA Support

Date 7 April 1971

Reference attached list of deactivated missile sites.

In order to fulfill the requirements of Task I of our ACDA contract we feel that a study should be made on operational and deactivated status of the same sites, rather than on similar sites, and that at least two examples of each type of site be studied. However, we have surveyed the film available in the Washington area and in the Data Base at [] and find it inadequate to accomplish the requirements of work statement.

STATINTL

Following is a summary of available imagery.

STATINTL

STATINTL

- Only one [] site is covered when operational, but the image is blurred.

STATINTL

- Only one [] site (not the same as above) is covered after deactivation, but again the image is of poor quality.

STATINTL

- Coverage of the same site before and after deactivation exists for only one []

STATINTL

- Three additional sites are covered after deactivation.

STATINTL

STATINTL

- Only one [] site is covered when operational, but the image is very hazy.

STATINTL

- Seven [] sites are covered after deactivation; image quality ranges from fair to excellent. Of these seven sites, four are covered by aircraft photography from the [] data base, with very poor and unacceptable resolution.

STATINTL

STATINTL

STATINTL

- No [] sites are covered either before or after deactivation.

Declass Review by NSA/DOD

STATINTL

Approved For Release 2007/03/03 : CIA-RDP78B05171A000700030024-4

In summary, only one site is covered before and after deactivation. STATINTL

Request your assistance in gaining access to suitable photography of appropriate areas listed on the enclosures. STATINTL
